

The Guides Scarecrow Festival and the winners are.....

The Guides Scarecrow Festival was inspired by the teddies and rainbows placed in windows at the start of lockdown to offer support and cheer people up. We wanted an event that would engage our guides, villagers and be safe and accessible for all, particularly as the usual annual events like Gala and Garganock Show had been cancelled. Our guides worked really hard creating gorgeous flyers, helping with delivery and judging. We were amazed to see 63 scarecrows pop up over the week and hesitated to see so many people out wandering around trying to spot them. Although we have three worthy winners, it's worth noting that over half the scarecrows received at least one vote, and also special mention should go to the very cute and funny scarecrows that had clearly been created by children.
